Can I mix old and new batteries? It is recommended to replace all batteries at the same time to avoid mixing old and new batteries. Mixing batteries can affect the optimal performance of the devices and cause leakage. Batteries should not be thrown away regularly by garbage if they come into contact with other pieces of metal or other batteries, which can be dangerous. Take the batteries to the collection site of household hazardous waste. If you need an additional protective cap, positive and negative terminals with adhesive tape or electrical tape before throwing out the batteries. Coin/button batteries must be stored out of the reach of children. If swallowed, contact your doctor immediately.
